

TTC Textile Transfer Paper

For application onto white or pastel colour fabrics and textiles. Coated formula provides the ultimate in soft feel and durability. Transfers can be ironed directly to enhance colours when washed.

CPM Hard Surface Transfer Paper

For application onto various non-porous and non-coated hard surfaces.

OBM Dark Textile Transfer Paper

For full colour images onto dark garments or fabrics. Supports fine detailing.

WoW 7.2 Professional

WoW 7.2 Professional transfer paper enables full colour images, logos and photos onto dark garments and fabrics. Supports garment decoration onto cotton, polyester, leather, nylon and most textiles.

DCT Water Slide Decal Transfer Paper

For application onto non-porous smooth surfaces such as ceramics, plates, porcelain, glass, mirrors, candles, soap. Perfect for 3D and curved items.

ORD 8.1 Transfer Paper

ORD 8.1 transfer paper allows decoration of a range of acrylic and glass products.

Temporary Tattoo Transfer Paper

Unique and safe development for the application of temporary tattoos directly onto skin.

Coverseal Transparent Film

Transparent film for maximum UV protection and maximum scratch resistance.

Ink Dark Transfer Paper

Ink Jet Dark produces a very durable and detailed matt finish full colour transfer for application to dark garments.

Subli-Flock Transfer Paper

Subli Flock allows the production of full colour transfers with incredible fine detail. Subli Flock has a polyester base and gives prints that are extremely durable with a slightly raised texture for a quality finish.
